***Response to Arguments***

1. Applicant's request for reconsideration, filed March 4, 2005, of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

***Examiner's Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. This application is in condition for allowance except for the presence of claims 3-12 to species non-elected without traverse. Accordingly, claims 3-12 have been cancelled.

***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

A process of electrically testing a flip-chip semiconductor assembly according to the order of sequential steps of:

- (1) Directly detachably contacting a surface of a substrate with probes
- (2) While the substrate is in contact with the probes, bringing a die and the substrate together in conductive contact to form the flip-chip semiconductor assembly
- (3) Electrically testing the assembly using the probes before the die is sealed

As described in claim 1 has not been found. It is further noted that the examiner's reasons are understood to be predicated upon consideration of each of the claims as a whole, and not upon any specific elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
